

## Sustainable Water Extraction on and off Campus

**Water extraction for the University campus is sourced from the following**

- Hidkal water Reservoir - Located 50 km from the campus,
- Lingraj campus well - Situated 6km from the campus,
- Kangrali B. K. well - positioned 4km from the campus,
- Borewells - Installed directly in the campus for additional water supply.
- These diverse sources ensure a reliable and sustainable water supply for the University's daily needs.
