(Deemed-to-be-University established u/s 3 & 12B of the UGC Act, 1956)
Accredited A+ Grade by NAAC (3rd Cycle) Placed in Category 'A' by MoE (Gol)

Conscious Water usage in the wider Community

The Orientation and educational camps organized by the University in villages and schools have been instrumental in raising awareness about conscious water usage. These initiatives teach participants the importance of water conservation, efficient usage, and protecting local water resources. By engaging directly with the community, the University fosters a sense of shared responsibility and encourages sustainable water practices that can be adopted at both the household and community levels.
